

## Ziwei Gu

---

CONTACT INFORMATION	Email: <a href="mailto:zg48@cornell.edu">zg48@cornell.edu</a> Website: <a href="https://www.ziweigu.com/">https://www.ziweigu.com/</a>
RESEARCH INTERESTS	Human-Computer Interaction (HCI) Machine Learning, Data Mining, Data Visualization, Social Computing, Algorithm Fairness
EDUCATION	<b>Cornell University</b> , Ithaca, New York M.Eng. Computer Science, January 2021 – May 2021 <b>GPA: 3.94/4.00</b> <b>Cornell University</b> , Ithaca, New York B.A. Computer Science, Magna cum laude, August 2017 – December 2020 B.A. Mathematics, August 2017 – December 2020 <b>GPA: 3.83/4.00</b>
PEER-REVIEWED PAPERS	Jing Nathan Yan, <b>Ziwei Gu</b> , and Jeffrey M Rzeszotarski. <a href="#">Tessera: Discretizing Data Analysis Workflows on a Task Level</a> . In ACM CHI Conference on Human Factors in Computing Systems (CHI '21), May 8-13, 2021, Yokohama, Japan.  <b>Ziwei Gu</b> , Jing Nathan Yan, and Jeffrey M Rzeszotarski. <a href="#">Understanding User Sensemaking in Machine Learning Fairness Assessment Systems</a> . In WWW'21: The Web Conference 2021 (WWW'21), April 19-23, 2021, Ljubljana, Slovenia.  Jing Nathan Yan, <b>Ziwei Gu</b> , Hubert Lin, and Jeffrey M Rzeszotarski. <a href="#">Silva: Interactively Assessing Machine Learning Fairness Using Causality</a> . In ACM CHI Conference on Human Factors in Computing Systems (CHI '20), April 25-30, 2020, Honolulu, HI, USA.
ON-GOING WORK	<b>Ziwei Gu</b> , Jing Nathan Yan, and Jeffrey M Rzeszotarski. "Involving Human Feedback in the Design of Machine Learning Metrics." In CSCW 2022. Taipei, Taiwan. <b>Currently Under Review</b>  "Metric Interpretability: A Survey of Metric Use and Development in Machine Learning Research." <b>Currently in Preparation</b>
ACADEMIC RESEARCH	<b>Cornell University</b> , Ithaca, New York <i>Undergraduate Research Assistant</i> <b>May 2019 – Present</b> <ul style="list-style-type: none"><li>Designed, built, and evaluated Silva, an interactive machine learning fairness assessment tool that helps people explore and reason about sources of bias in datasets and classifiers. <a href="#">[Paper]</a></li><li>Mined data analyst event logs, extracted prominent features, and developed abstractions of user actions to discretize user workflow into goal-directed segments. <a href="#">[Paper]</a></li><li>Identified sensemaking patterns in users' bias exploration through "think aloud" user studies; Reached insightful conclusions on the different mechanisms by which 3 AI debiasing tools shape users' hypotheses and goals. <a href="#">[Paper]</a></li><li>Initiated a project on a novel visual analytic tool that enables human-in-the-loop aggregation of fairness and utility metrics to determine the optimal metric for an application.</li><li>Adviser: Professor Jeffrey Rzeszotarski</li></ul>

	<p><i>Undergraduate Researcher</i> <span style="float: right;"><b>January 2019 – May 2019</b></span></p> <p>Trained a deep learning model (Transformer) for open information extraction, modeled as a sequence to sequence transduction task; evaluated the model on a large benchmark dataset and showed that it outperformed several existing tools without the dependencies on other NLP tools. <a href="#">[Paper]</a></p> <ul style="list-style-type: none"> <li>• Advisor: Professor Claire Cardie</li> </ul>
	<p><i>Graduate Researcher</i> <span style="float: right;"><b>January 2021 – May 2021</b></span></p> <p>Developed a fast, interactive dashboard illustrating population clustering results by various algorithms.</p> <ul style="list-style-type: none"> <li>• Advisor: Professor Madeleine Udell</li> </ul>
INDUSTRY RESEARCH	<p><b>Lyft</b>, San Francisco, California <span style="float: right;"><b>June 2020 – July 2020</b></span></p> <p><i>Data Scientist Intern/Research Intern</i></p> <ul style="list-style-type: none"> <li>• Estimated the opportunity size of Lyft Family and promoted the successful launch of this feature.</li> <li>• Clustered rider profiles and recommended incentive products targeting each segment of users.</li> <li>• Upgraded Lyft’s data analysis and visualization tool after seeking input from scientists and engineers across the company.</li> </ul>
	<p><i>Data Scientist</i> <span style="float: right;"><b>August 2021 – Present</b></span></p> <ul style="list-style-type: none"> <li>• Experimented with new interface designs and initiatives that increased driver engagement by 8%.</li> </ul>
TEACHING EXPERIENCE	<p><b>Operating Systems (CS 4410)</b> <span style="float: right;"><b>January 2021 – May 2021</b></span></p> <p><i>Graduate Teaching Assistant</i></p> <ul style="list-style-type: none"> <li>• Instructor: Professor Robbert Van Renesse and Professor Lorenzo Alvisi</li> </ul>
	<p><b>Machine Learning (CS 4780)</b> <span style="float: right;"><b>August 2020 – December 2020, August 2019 – December 2019</b></span></p> <p><i>Teaching Assistant</i></p> <ul style="list-style-type: none"> <li>• Instructor: Professor Thorsten Joachims</li> </ul>
	<p><b>Computer System Organization and Programming (CS 3410)</b> <span style="float: right;"><b>January 2020 – May 2020</b></span></p> <p><i>Teaching Assistant</i></p> <ul style="list-style-type: none"> <li>• Instructor: Professor Hakim Weatherspoon</li> </ul>
	<p><b>Object-Oriented Programming and Data Structures (CS 2110)</b> <span style="float: right;"><b>August 2018 – May 2019</b></span></p> <p><i>Teaching Assistant</i></p> <ul style="list-style-type: none"> <li>• Instructor: Professor David Gries</li> </ul>
OTHER EXPERIENCE	<p>Project Lead, Statistics Faculty Award winner, <b>Cornell Data Science Team</b> <span style="float: right;"><b>February 2018 – May 2020</b></span></p> <p>Resident Advisor, <b>Clara Dickson Hall, Cornell University</b> <span style="float: right;"><b>January 2019 – June 2021</b></span></p>
